

Executive E-Commerce Sales Analytics Dashboard

Prepared by: Anushka Rajput

Tool: Tableau Public

Project Type: Business Intelligence Dashboard

1. Introduction

The Executive E-Commerce Sales Analytics Dashboard is an interactive business intelligence dashboard developed using Tableau Public. It analyzes sales performance, customer behavior, payment methods, product categories, delivery performance, and customer reviews to support data-driven business decisions.

2. Objectives

- Analyze overall sales performance.
- Monitor business KPIs.
- Identify top-performing product categories.
- Understand customer payment preferences.
- Analyze delivery performance.
- Study customer review trends.

3. Dataset Overview

The dashboard is built using an e-commerce dataset containing customer, order, payment, product, seller, and review information. The data was cleaned and transformed before visualization.

4. Key Performance Indicators (KPIs)

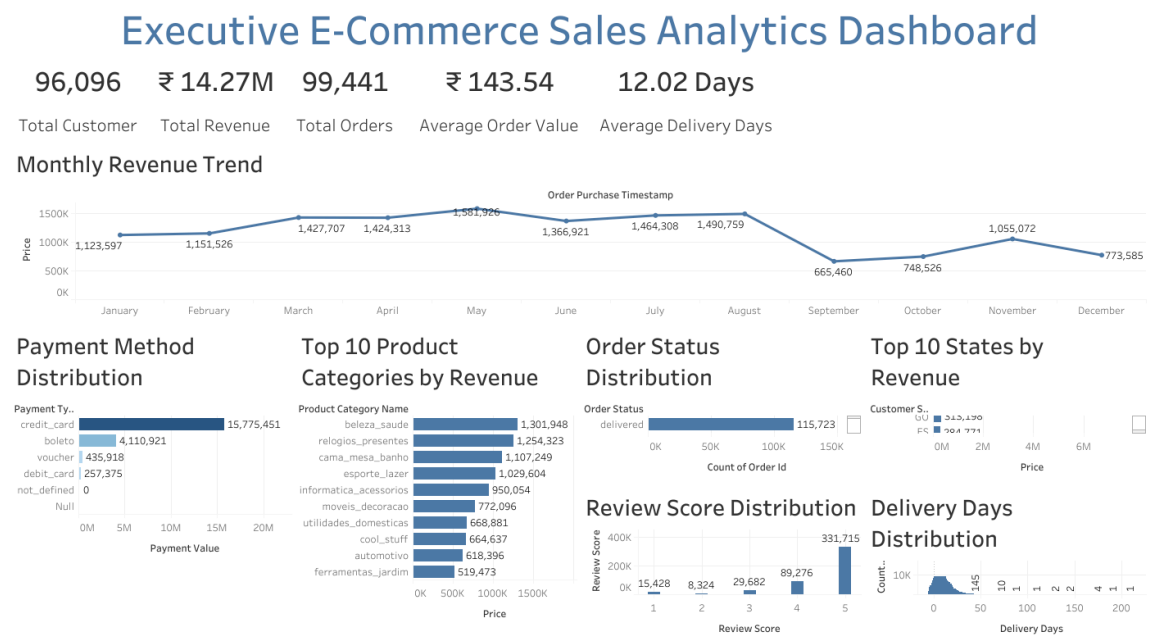

- Total Revenue: ₹14.27M
- Total Orders: 99,441
- Total Customers: 96,096
- Average Order Value: ₹143.54

- Average Delivery Days: 12.02

5. Dashboard Components

- Monthly Revenue Trend
- Payment Method Distribution
- Top 10 Product Categories by Revenue
- Order Status Distribution
- Top 10 States by Revenue
- Review Score Distribution
- Delivery Days Distribution

5. Dashboard Image

6. Key Insights

- Credit cards are the dominant payment method.

- Beauty and lifestyle categories generate the highest revenue.
- Most orders are successfully delivered.
- The majority of customers give 5-star ratings.
- Most deliveries are completed within approximately two weeks.
- Sales vary across months, indicating seasonal trends.

7. Conclusion

This dashboard provides an executive-level overview of e-commerce performance. It enables stakeholders to monitor KPIs, identify trends, and make informed business decisions through interactive visualizations.

8. Future Enhancements

- Add interactive filters.
- Implement sales forecasting.
- Connect to a live database.
- Build customer segmentation dashboards.
